dornbusch fischer and startz has been a long standing leading intermediate macroeconomic theory text since its introduction in 1978 this revision retains most of the text s traditional features including a middle of the road approach and very current research while updating and simplifying the exposition a balanced approach explains both the potential and

limitations of economic policy macroeconomics employs a model based approach to macroeconomic analysis and demonstrates how various models are connected with the goal of giving students the capacity to analyze current economic issues in the context of an economic frame of reference the only pre requisite continues to be principles of economics

a complete view of macroeconomics dornbusch fischer and startz s macroeconomics relies on straightforward explanations by emphasizing concepts over technique and fitting difficult material into a larger framework so students can see its relevance in the world the authors explore state of the art research while allowing for flexibility in how much to emphasize these topics a balanced approach explains both the potential and limitations of economic policy hallmark features and key changes in the 13th edition include background and analysis on the great recession of 2007 2009 and its aftermath updates on unemployment and the federal reserve including more detailed dives into each topic with current data definitions and context history speaks and what more do we know boxes callout relevant data and information that further enhance the concepts covered within each chapter macroeconomics employs a model based approach to macroeconomic analysis and demonstrates how various models relate to the goal of giving students the capacity to analyze current economic issues in the context of an economic frame of reference a focus on international perspectives helps students understand the important links connecting foreign economies to their own

fully updated this classic best seller presents a modern view of macroeconomics at a level accessible for students

the main purpose of lectures on macroeconomics is to characterize and explain fluctuations in output unemployment and movement in prices lectures on macroeconomics provides the first comprehensive description and evaluation of macroeconomic theory in many years while the authors perspective is broad they clearly state their assessment of what is important and what is not as they present the essence of macroeconomic theory today the main purpose of lectures on macroeconomics is to characterize and explain fluctuations in output unemployment and movement in prices the most important fact of modern economic history is persistent long term growth but as the book makes clear this growth is far from steady the authors analyze and explore these fluctuations topics include consumption and investment the overlapping generations model money multiple equilibria bubbles and stability the role of nominal rigidities competitive equilibrium business cycles nominal rigidities and economic fluctuations goods labor and credit markets and monetary and fiscal policy issues each of chapters 2 through 9 discusses models appropriate to the topic chapter 10 then draws on the previous chapters asks which models are the workhorses of macroeconomics and sets the models out in convenient form a concluding chapter analyzes the goals of economic policy monetary policy fiscal policy and dynamic inconsistency written as a text for graduate students with some background in macroeconomics statistics and econometrics lectures on

macroeconomics also presents topics in a self contained way that makes it a suitable reference for professional economists

the third edition of dornbusch s macroeconomics is a leading intermediate macroeconomic theory text this revision retains most of the traditional features including a middle of the road approach and very current research while updating and simplifying the exposition a completely new chapter on big events pulls together material on the great depression budget deficits and hyperinflation students will get a background on these important economic events and will learn principles which are harder to identify in smoothly running economies macroeconomics maintains strong global coverage offering an extensive international orientation for an increasingly globalised world

stanley fischer has brought together this collection of essays in support of the view that mainstream macroeconomics can contribute much that it is both scientifically and socially useful to the analysis of policy issues and controversies

aims to teach students how economics really works in the world

this is the sixth in a series of annuals from the national bureau of economic research that are designed to stimulate research on problems in applied economics to bring frontier theoretical developments to a wider audience and to accelerate the interaction between analytical and empirical research in macroeconomics olivier blanchard and stanley fischer are both professors of economics at mit contents pitfalls and opportunities what macroeconomists should know about unit roots john y campbell and pierre perron markups and the business cycle julio rotemberg and michael woodford privatization in eastern europe incentives and the economics of transition jean tirole the ems the emu and the transition to a common currency kenneth a froot and kenneth s rogoft growth macroeconomics and development stanley s fischer recessions as reorganizations robert e hall

this annual is designed to stimulate research on problems in applied economics to bring frontier theoretical developments to a wider audience and to accelerate the interaction between analytical and empirical research in macroeconomics

ein vergleich der inflationsraten und arbeitslosenquoten verschiedener länder offenbart markante zwischenstaatliche unterschiede die über lange zeiträume hinweg bemerkenswert dauerhaft sind diese beobachtung wirft die frage auf worin die hartnäckigen zwischenstaatlichen stabilitätsdifferenziale begründet liegen und unter welchen bedingungen sich ein höherer grad gesamtwirtschaftlicher stabilität in einzelnen ländern überhaupt verwirklichen lässt paul günter schmidt legt in diesem buch einen erklärungsansatz vor der die bedeutung institutioneller merkmale des zentralbank wechsellkurs banken regierungs und arbeitsmarktsystems für die wirtschaftliche entwicklung eines landes analysiert seine vergleichende

analyse von 47 demokratien während des letzten vierteljahrhunderts zeigt daß die wurzeln gesamtwirtschaftlicher instabilität in den rahmenbedingungen der wirtschafts und gesellschaftsordnung zu suchen sind

acclaim for the first edition This easy to read collection tells the whole story filled with short well written pieces the encyclopedia covers the names and ideas that preceded keynes that carried his work to the center of the profession and that eventually supplanted him there there are excellent and unexpected articles on the austrian school the lausanne school and the ricardo effect there are well done pieces on all the basic theoretical models at the heart of keynesianism the volume has been well put together the editors deserve special praise for letting each contributor tell his own story those who oppose keynes's ideas are just as well represented as those who carry the torch for him this evenhandedness helps to ensure a volume that is truly representative and that will allow its users to get a full picture of the life and times of keynesian economics

Bradley W Bateman Grinnell College US The book will also be of some interest to serious scholars partly because it includes biographies of many economists too young to have been included in the new palgrave such as dornbusch fisher herschel grossman kregel lucas and robert townsend it also includes some very interesting longer essays

Peter Howitt the economic journal This book provides an excellent summary of the many strands of keynesian style thought both before and after 1936 its well considered entries take care to make explicit the assumptions and fundamental points of difference between theories too often concealed by the parents and advocates of specific theories in their zeal to promote the universality of the ideas there is scarcely an entry that suffers from wordiness and repetition the reader's scarce time is not abused

Elizabeth Webster economic record This reviewer found using this source exhilarating and endowed with additional interest in view of the 1997 discussion on the inclusion or noninclusion of keynesian economics in introductory economics textbooks the editors should be applauded for helping to preserve a part of intellectual heritage

Bogdan Mieczkowski american reference books It is the best single reference source on keynesian economics and will be welcomed by students and teachers in economics as well as scholars in related social sciences and government policy makers

Educational Book Review this thoroughly revised and updated second edition of a highly acclaimed and authoritative reference work introduces the major concepts in the field of keynesian economics the comprehensive encyclopedia features accessible informative and provocative contributions by leading international scholars working in the tradition of keynes it brings together widely dispersed yet theoretically congruent ideas presents concise biographies of economists who have contributed to the debate on keynes and the keynesian revolution and outlines the basic principles models and tools used to discuss the economic consequences of the general theory longer entries on specific topics associated with keynes and the keynesian revolution analyse the principal factors that contributed to the general theory the economics of keynes and the rise and apparent decline of keynesian economics in greater detail the second edition will ensure that an encyclopedia of keynesian economics will remain the best single reference source on keynesian economics

and will continue to be welcomed by academics students and teachers of economics as well as by scholars in related social sciences and government policymakers

this is the fifth in a series of annuals from the national bureau of economic research that are designed to stimulate research on problems in applied economics to bring frontier theoretical developments to a wider audience and to accelerate the interaction between analytical and empirical research in macroeconomics olivier blanchard and stanley fischer are both professors of economics at mit contributors ricardo caballero guiseppe bertola andrew caplin robert hall gur Ofer Abram Bergson martin weitzman francesco giavazzi marco pagano allan drazen martin feldstein steven davis john haltiwanger katharine abraham robert townsend mark bils andrew swald gary hansen robert barro xavier sala i martin william brainard robert lucas

a comprehensive four volume resource that explains more than 800 topics within the foundations of economics macroeconomics microeconomics and global economics all presented in an easy to read format as the global economy becomes increasingly complex interconnected and therefore relevant to each individual in every country it becomes more important to be economically literate to gain an understanding of how things work beyond the microcosm of the economic needs of a single individual or family unit this expansive reference set serves to establish basic economic literacy of students and researchers providing more than 800 objective and factually driven entries on all the major themes and topics in economics written by leading scholars and practitioners the set provides readers with a framework for understanding economics as mentioned and debated in the public forum and media each of the volumes includes coverage of important events throughout economic history biographies of the major economists who have shaped the world of economics and highlights of the legislative acts that have shaped the u s economy throughout history the extensive explanations of major economic concepts combined with selected key historical primary source documents and a glossary will endow readers with a fuller comprehension of our economic world

das lehrbuch stellt nach der Überarbeitung in der 7 auflage eine in sich abgerundete gesamtdarstellung der volkswirtschaftslehre für studierende an universität und hochschule dar

this is the fourth in a series of annuals from the national bureau of economic research that are designed to stimulate research on problems in applied economics to bring frontier theoretical developments to a wider audience and to accelerate the interaction between analytical and empirical research in macroeconomics contents the monetary history after twenty five years new evidence on the money output relationship christina romer and david romer restrictions on
